

Full Color, Entrapment Style Vinyl Binder Artwork Setup

Entrapment style vinyl binders are made with three separate printed sheets permanently laminated underneath a layer of clear vinyl.

Our templates look like this

The large orange rectangles represent the final cut size of the printed sheets, and are contained in a separate layer (both Illustrator and InDesign) to make them easy to show/hide.

Our preference is that you lay out your artwork over the entire binder dieline, like this, being sure to extend any bleed artwork well beyond the edge of the binder.

Once ready, create a “Package” (File->Package in either Illustrator or InDesign) and send that to us. We will run your artwork through our Pre-flight and send a proof to you to confirm everything came across correctly.

If you have any questions, please call us at 888 338 0924, or email to artwork@speedbinder.com. We are happy to help with any questions you may have.
